gamesGoldman Sachs Tower The Goldman Sachs Tower is a complex of commercial buildings
located in Lower Manhattan, New York City. The complex consists of a, 34-story tower, which
has a bronze curtain wall, containing some of office space. The tower is listed on the National
Register of Historic Places and the State Register of Historic Places. Description The tower,
located at 100 William Street, is known for its rooftop garden of tropical plants and trees. It was
designed by the architectural firm S. Tilton and Associates and was completed in 1969. The
building is shaped as a stepped quadrangle, with the entrance on the corner of William Street and
Greenwich Street. The quadrangle is enclosed by a curtain wall of bronze, which is a
contemporary application of Romanesque Revival architecture. The building was originally
designed to house corporate offices for Goldman Sachs, but the financial firm is now located in a
newer building at One Wall Street. The restaurant, Jekyll & Hyde, on the 28th floor, was closed
in 2013. A report by the city's Department of Health and Mental Hygiene indicated that the
restaurant "failed to maintain proper procedures to ensure food safety". As of 2016, the
restaurant remains closed. In 2015, a report by New York University Stern School of Business
School of Real Estate found that the tower "is the only commercial building in Manhattan to
achieve a net gain in value since 2002, climbing 17.2 percent to \$312.1 million, by holding steady
since 2014, while the market as a whole declined by 3.5 percent to \$2.8 billion." Gallery
